Who Should Attend

As a Dynamics 365 for Finance and Operations Functional Consultant, you analyze business requirements and translate them into fully realized business processes and solutions that implement industry-recommended practices. You have a fundamental understanding of accounting principles and a deeper understanding of financial operations as they relate to core finance, manufacturing, retail, and supply chain management operations. You specialize in one or more feature sets of Dynamics 365 Finance including core finance, general ledger, tax, cost accounting, cost management, fixed assets, asset leasing, budgeting, revenue recognition, consolidation and elimination, credit and collections, cash and bank management, and expense management. You understand the relationships between finance and manufacturing, retail, and supply chain management.
