

FortiDLP Administrator

Course Description

In this course, you will learn how to manage FortiDLP tenant accounts and deploy FortiDLP endpoint agents to protect sensitive data across your organization. You will explore how FortiDLP provides data loss prevention (DLP), insider risk management (IRM), SaaS data security, and risk-informed user education for users working both onsite and remotely. You will also build a foundation in FortiDLP operations by configuring endpoint profiles, applying security policies, and using content inspection to monitor and control data movement.

Course Duration:

1 Day

Prerequisites:

It is recommended that you have an understanding of the following topics:

- Basic understanding of network security concepts
- Basic understanding of cloud security concepts
- Basic understanding of data protection

Outlines:

1. Design and Deployment
2. Integration
3. Configuration
4. Core Functions
5. Troubleshooting

Objectives:

After completing this course, you will be able to:

- Describe FortiDLP architecture
- Identify FortiDLP components
- Deploy and manage FortiDLP agents
- Integrate FortiDLP with third-party solutions
- Configure FortiDLP security policies
- Use policy templates, policy groups, and policy assets
- Configure incident clustering and incident sequence rules
- Manage and use custom and Microsoft sensitivity labels
- Manage web-based, mail-based, and USB-based actions
- Describe asset and node management
- Describe investigations and explore case management
- Detect and investigate policy violations
- Manage events and incidents
- Manage insider risks

- Explore secure data flow
- Use forensics for data capture
- View GenAI and SaaS application inventory with data risk analytics
- Understand real-time employee coaching through Slack and Teams messaging
- Resolve FortiDLP agent deployment issues
- Describe FortiDLP agent component issues
- View FortiDLP agent performance issues
- Resolve FortiDLP agent connectivity issues
- Configure evidence capture
- Use the FortiDLP decryption tool
- Set up external evidence storage
- Request agent debug bundles
- View FortiDLP agent crash reports

Who should attend

Security professionals involved in design, administration, and management of the FortiDLP data protection solution should attend this course.
