The Fortinet Training Institute

The Fortinet Training Institute is committed to developing experts in the field of cybersecurity through its training and certification programs for customers, partners, and employees, as well as many academic and education outreach partnership programs around the world. Supported by Fortinet's strong network, the Training Institute has issued over 1.8 million certifications to date.

The Fortinet Training Institute's ecosystem of public and private partnerships helps Fortinet further address the skills gap by increasing the access and reach of its cybersecurity certifications and training.

Fortinet also works with global leaders like the World Economic Forum, as part of our effort to drive change on the most pressing cybersecurity issues. Our partnerships extend to industry, academia, government, and nonprofit organizations, in an effort to reach more people and help close the cybersecurity skills gap.

Fortinet Training Institute Footprint

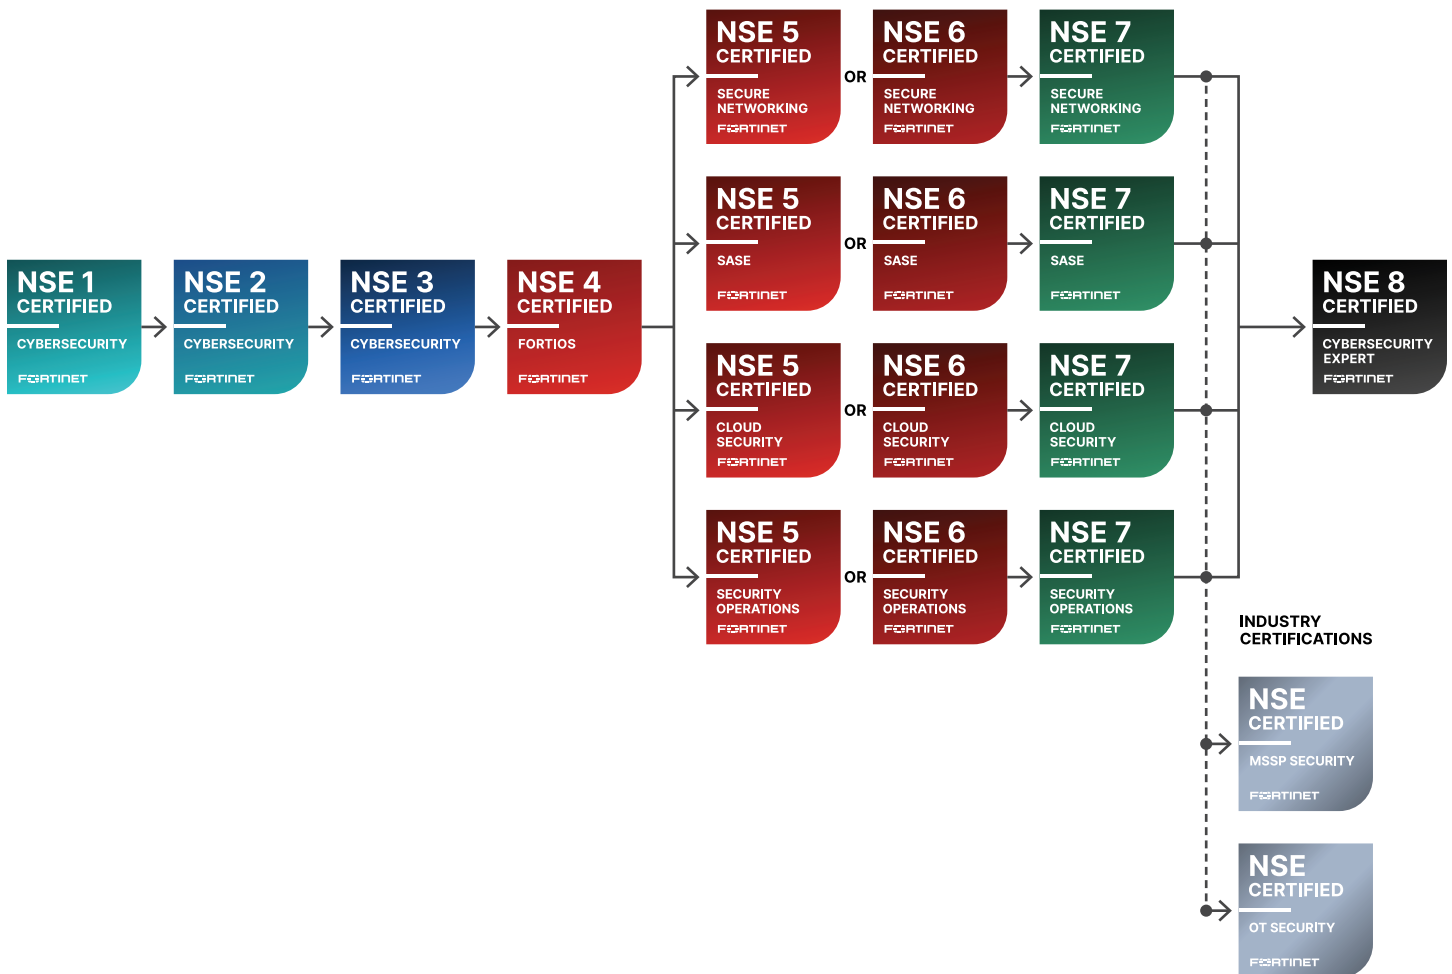

For a full list of training locations offered through Fortinet and our Authorized Training Centers, see the [schedule](#).

The Fortinet NSE Certification Program

The Fortinet NSE Certification program is designed to help cybersecurity professionals build and validate the knowledge and skills needed to secure today's evolving digital environments. Aligned with current technologies, industry demands, and emerging threats, the program equips learners with practical expertise while preparing them for the challenges of tomorrow.

The certification program includes a wide range of self-paced and instructor-led courses, along with practical, hands-on exercises that demonstrate mastery of complex cybersecurity concepts. Each certification validates specific levels of cybersecurity expertise, from foundational to advanced, expert-level skills.

Fortinet NSE Certification Program

Refer to the [Training Institute Portal](#) for the latest updates.

Recertification Requirements

The chart below outlines the updated recertification requirements. **All prerequisite certifications must be active.**

Certification	Prerequisites for renewing the certification	How to renew the certification	This certification renews the following certifications ¹
NSE 8	<ul style="list-style-type: none"> NSE 4 certification NSE 5 or NSE 6 certification NSE 7 certification (same track as NSE 5 or NSE 6) 	<ul style="list-style-type: none"> 200 points³ 	1, 2, 3, 4, 5, 6, and 7 ²
NSE 7	<ul style="list-style-type: none"> NSE 4 certification NSE 5 or NSE 6 certification (same track as the NSE 7) 	<ul style="list-style-type: none"> Complete the recertification assessment⁴ if the proctored exam is less than 2 years old or Pass the proctored exam 	1, 2, 3, 4, 5 (same track), and 6 (same track)
NSE 6	NSE 4 certification	<ul style="list-style-type: none"> Complete the recertification assessment⁴ if the proctored exam is less than 2 years old or Pass the proctored exam 	1, 2, and 3
NSE 5	NSE 4 certification	<ul style="list-style-type: none"> Complete the recertification assessment⁴ if the proctored exam is less than 2 years old or Pass the proctored exam 	1, 2, and 3
NSE 4	None	<ul style="list-style-type: none"> Complete the recertification assessment⁴ if the proctored exam is less than 2 years old or Pass the proctored exam 	1, 2, and 3
NSE 3	None	<ul style="list-style-type: none"> Complete the course and Pass the online exam 	1 and 2
NSE 2	None	Complete the course	1
NSE 1	None	Complete the course	None
Industry Certifications	<ul style="list-style-type: none"> NSE 4 certification NSE 5 or NSE 6 certification NSE 7 certification (same track as the NSE 5 or NSE 6) 	<ul style="list-style-type: none"> Complete the recertification assessment⁴ if the exam is not more than 2 years old or Pass the proctored exam 	None

¹ Only active certifications are renewed.

² NSE 1–7 certifications are renewed only when any NSE 8 practical exam is passed.

³ Maintaining an active NSE 7 certification adds to the points requirement—view Activity Points table on next page.

⁴ You have the option to complete the recertification assessment when available; otherwise, complete the proctored exam. The recertification assessment is a subsequent version of the proctored exam.

NSE 8 Recertification Activity Points

Recertification is achieved by earning activity points across eligible exams, training, beta participation, and content contributions. The table below outlines qualifying activities and their associated point values.

Category	Activity	Points	Cap
Exams	▪ Passing an NSE 4 / NSE 5 / NSE 6 exam	50	
	▪ Passing an NSE 7 exam	75	
	▪ Passing an Industry exam	75	
	▪ Passing any NSE 8 practical exam	200 ¹	
Training	▪ Completing eligible NSE 4 / NSE 5 / NSE 6 training courses	3/hour	75
	▪ Completing eligible NSE 7 training courses	4/hour	
	▪ Completing eligible NSE 7 recertification assessments	50	50
Beta Testing	▪ Participating in an NSE 8 beta practical exam	50	
	▪ Participating in NSE 4–7 beta written exams	20	
Content	▪ Submitting an NSE written question (any level)	3	30
	▪ Submitting an NSE 8 practical task	5	50
	▪ Participate in Job Task Analysis	5	20
	▪ Reviewing exam questions (any level)	5	20

¹ Recertifies all NSE 1–7 active certifications.

NSE Certifications

Below is a list of all the NSE certifications along with requirements to achieve certification. Click on the links to access the self-paced courses and see detailed information on requirements, prerequisites, recertification, duration of courses and labs, class schedules, and more.

View all training and lab SKUs [here](#).

NSE 8 Certified: Cybersecurity Expert

The NSE 8 Cybersecurity Expert certification validates your comprehensive and expert knowledge of network security design, configuration, and troubleshooting for complex networks. To attempt both practical exams, candidates must have related industry experience. It is recommended that candidates have extensive experience with Fortinet products in a production environment. [Learn more](#).

REQUIREMENTS

NSE 4 certification
NSE 5 or NSE 6 certification
NSE 7 certification (same track as NSE 5 or NSE 6)
and
Pass the NSE 8 core exam
Pass one of the NSE 8 elective exams

COURSE

- NSE 8 Immersion (recommended)

EXAM

- NSE 8 Core

ELECTIVES

- Secure Networking
- Application Security
- Security Operations

NSE 7 Certified: Secure Networking

The NSE 7 in Secure Networking certification validates your ability to design, administer, monitor, and troubleshoot Fortinet network security solutions. The certification exam covers network security infrastructures using advanced Fortinet solutions. [Learn more](#).

REQUIREMENTS

NSE 4 certification
NSE 5 or NSE 6 certification in Secure Networking
and
Pass the NSE 7 proctored exam

COURSE

- Enterprise Firewall Administrator
- SD-WAN Enterprise Administrator

EXAM

- Secure Networking Architect

NSE 7 Certified: SASE

The NSE 7 in SASE certification validates your ability to design, administer, monitor, and troubleshoot advanced Fortinet SASE deployments. The certification exam focus on FortiSASE and Fortinet SD-WAN solutions, including the design and troubleshooting of complex SASE infrastructures that integrate secure access services and SD-WAN to support distributed users, applications, and network edge locations. [Learn more.](#)

REQUIREMENTS

NSE 4 certification
NSE 5 or NSE 6 certification
in SASE
and
Pass the NSE 7
proctored exam

COURSE

- SASE Enterprise Administrator
- SD-WAN Enterprise Administrator

EXAM

- SASE Architect

NSE 7 Certified: Cloud Security

The NSE 7 in Cloud Security certification validates your ability to secure public and private cloud applications by designing, administering, monitoring, and troubleshooting Fortinet application security solutions. The certification exam covers enterprise cloud infrastructures using advanced Fortinet solutions. [Learn more.](#)

REQUIREMENTS

NSE 4 certification
NSE 5 or NSE 6 certification
in Cloud Security
and
Pass the NSE 7
proctored exam

COURSE

- Public Cloud Security Architect

EXAM

- Public Cloud Security Architect

NSE 7 Certified: Security Operations

The NSE 7 in Security Operations certification validates your ability to design, administer, monitor, and troubleshoot Fortinet security operations solutions. The certification exams cover security operations infrastructures using advanced Fortinet solutions. [Learn more.](#)

REQUIREMENTS

NSE 4 certification
NSE 5 or 6 certification
in Security Operations
and
Pass the NSE 7
proctored exam

COURSE

- Security Operations Architect

EXAM

- Security Operations Architect

NSE 6 Certified: Secure Networking

The NSE 6 in Secure Networking certification validates your ability to secure networks and applications by deploying, managing, and monitoring Fortinet advanced network security products. [Learn more.](#)

NSE 6 CERTIFIED

SECURE
NETWORKING
FORTINET

REQUIREMENTS

NSE 4 certification
and
Pass one of the NSE 6

- FortiEDR Administrator

EXAM

- FortiClient EMS Administrator
- FortiDLP Administrator
- FortiEDR Administrator

NSE 6 Certified: Cloud Security

The NSE 6 in Cloud Security certification validates your ability to secure public and private cloud applications by deploying, managing, and monitoring Fortinet advanced application security products. The certification exams cover the tasks related to Fortinet application security devices and VMs. [Learn more.](#)

NSE 6 CERTIFIED

CLOUD
SECURITY
FORTINET

REQUIREMENTS

NSE 4 certification
and
Pass one of the NSE 6
proctored exams

COURSE

- FortiCNAPP Analyst
- FortiDDoS Administrator
- FortiMail Administrator
- FortiMail Workspace Security Administrator

EXAM

- FortiCNAPP Analyst
- FortiDDoS Administrator
- FortiMail Administrator
- FortiMail Workspace Security Administrator

NSE 6 Certified: Security Operations

The NSE 6 in Security Operations certification validates your ability to secure networks and applications by deploying, managing, and monitoring Fortinet Advanced security operations products. The certification exams cover the day-to-day tasks related to Fortinet advanced security operations devices. [Learn more.](#)

	REQUIREMENTS	COURSE	EXAM
	NSE 4 certification and Pass one of the NSE 6 proctored exams	<ul style="list-style-type: none"> FortiDeceptor Administrator FortiNDR Cloud Analyst FortiRecon Analyst FortiSIEM Analyst FortiSOAR Analyst 	<ul style="list-style-type: none"> FortiDeceptor Administrator FortiNDR Cloud Analyst FortiRecon Analyst FortiSIEM Analyst FortiSOAR Analyst

NSE 5 Certified: Secure Networking

The NSE 5 in Secure Networking certification validates your ability to secure networks and applications by deploying, managing, and monitoring Fortinet core network security products. [Learn more.](#)

	REQUIREMENTS	COURSE	EXAM
	NSE 4 certification and Pass one of the NSE 5 proctored exams	<ul style="list-style-type: none"> FortiSwitch Administrator SD-WAN Core Administrator Secure Wireless LAN Administrator 	<ul style="list-style-type: none"> FortiSwitch Administrator SD-WAN Core Administrator Secure Wireless LAN Administrator

NSE 5 Certified: SASE

The NSE 5 in SASE certification validates your ability to secure internet and Software-as-a-Service (SaaS) access using Fortinet SASE solutions. The certification exam covers the design, deployment, and management of small and medium-sized SASE infrastructures. [Learn more.](#)

	REQUIREMENTS	COURSE	EXAM
	NSE 4 certification and Pass one of the NSE 5 proctored exams	<ul style="list-style-type: none"> SD-WAN Core Administrator FortiSASE Core Administrator 	<ul style="list-style-type: none"> SASE and SD-WAN Core Administrator

NSE 5 Certified: Cloud Security

The NSE 5 in Cloud Security certification validates your ability to secure public and private cloud applications by deploying, managing, and monitoring Fortinet core application security products. The certification exams cover the tasks related to Fortinet application security devices and VMs. [Learn more.](#)

	REQUIREMENTS	COURSE	EXAM
	NSE 4 certification and Pass one of the NSE 5 proctored exams	<ul style="list-style-type: none"> FortiADC Administrator FortiAppSec Cloud Administrator FortiWeb Administrator 	<ul style="list-style-type: none"> FortiADC Administrator FortiAppSec Cloud Administrator FortiWeb Administrator

NSE 5 Certified: Security Operations

The NSE 5 in Security Operations certification validates your ability to secure networks and applications by deploying, managing, and monitoring Fortinet core security operations products. The certification exam covers the tasks related to Fortinet security operations devices. [Learn more.](#)

	REQUIREMENTS	COURSE	EXAM
	NSE 4 certification and Pass the NSE 5 proctored exam	<ul style="list-style-type: none"> FortiAnalyzer Analyst 	<ul style="list-style-type: none"> FortiAnalyzer Analyst

NSE 4 Certified: FortiOS

The NSE 4 in Cybersecurity certification validates your ability to configure, operate, and administer FortiGate devices to secure networks and applications. [Learn more.](#)

	REQUIREMENTS	COURSE	EXAM
	Pass the NSE 4 proctored exam	<ul style="list-style-type: none"> FortiOS Administrator 	<ul style="list-style-type: none"> FortiOS Administrator

NSE 3 Certified: Cybersecurity

The NSE 3 in Cybersecurity certification validates your ability to run high-level operations on a FortiGate device. This curriculum covers the fundamentals of operating the most common FortiGate features. [Learn more.](#)

REQUIREMENTS

Complete the online course
and
Pass the online exam

COURSE

- FortiGate Operator

EXAM

- FortiGate Operator

NSE 2 Certified: Cybersecurity

The NSE 2 in Cybersecurity certification validates that you have mastered the technical skills and knowledge that are required to identify and describe the core features of next-generation firewalls (NGFW). [Learn more.](#)

REQUIREMENTS

Complete the online course
and test

COURSE

- Introduction to the
Next Generation Firewall

EXAM

- N/A

NSE 1 Certified: Cybersecurity

The NSE 1 in Cybersecurity certification validates that you have mastered the technical skills and knowledge that are required for any entry-level job role in cybersecurity. This curriculum offers courses that cover today's threat landscape and the fundamentals of cybersecurity. [Learn more.](#)

REQUIREMENTS

Complete the online course
and test

How to Enroll in Training

Customer

If you are a customer or public user, you must first create a FortiCloud account on the [Fortinet Training Institute Portal](#).

Partner

If you are a partner, you must first create an account on the [Partner Portal](#). You must use your company email address to register.

Training Policies

Fortinet classes are in high demand, and classes often have waiting lists. If you repeatedly fail to notify Fortinet or the Authorized Training Center (ATC) that you cannot attend a course you registered for, you may be disqualified from registering for future classes and may be charged a no-show or administrative fee.

[Read our full Training Policy](#).

Frequently Asked Questions (FAQ)

View our [FAQ site](#) for details on course, lab, and exam registration, navigating the portal, and more.

If you cannot find the answer to your question, please contact us at:

<https://helpdesk.training.fortinet.com/en/support/tickets/new>.

Purchasing Fortinet Training Products

The Fortinet Training Institute offers training and certification products designed to support flexible learning for individuals and organizations. Available offerings are outlined below.

[Learn more](#).

1. Instructor-led courses delivered onsite (in person) or online through virtual classrooms, including scheduled public classes, private sessions, and customized private training tailored to your needs through a scoping process.
2. On-demand labs available within self-paced courses.
3. Certification exams and study materials.

1,800,000+

NSE certifications issued
as of October 2025

Fortinet Programs and Partnerships

In addition to the NSE Certification program, Fortinet supports a global ecosystem of Authorized Training Center (ATC) partners, academic institutions, education outreach organizations, and training programs that help expand access to cybersecurity skills worldwide.

Authorized Training Center (ATC) Program

Fortinet Authorized Training Centers (ATCs) form a global network of accredited providers delivering expert-led training in local languages across more than 150 countries and territories.

ATCs are equipped to scale training delivery to meet growing demand driven by the evolving cybersecurity landscape. Fortinet continuously evaluates and enables ATCs to ensure they meet high standards for instructional quality and technical expertise.

Training is available in both classroom and virtual formats, offering flexible options to support diverse learning needs.

For more information or to find an ATC, visit <https://www.fortinet.com/support/training/learning-center>.

Fortinet Certified Trainer (FCT) Program

The Fortinet Certified Trainer (FCT) program recognizes instructors who combine deep technical expertise in Fortinet solutions with proven instructional capability. FCTs deliver high-quality training to customers and partners, applying real-world experience to drive practical and impactful learning outcomes.

Aligned with the NSE Certification program, FCTs must maintain the highest relevant NSE certification and hold current exam credentials for the courses they deliver.

To become an FCT, candidates must pass a professional trainer assessment based on the FortiOS Administrator course, validating both technical proficiency and instructional capability. Successful candidates are authorized to deliver core NSE courses, provided they hold the corresponding exam badges. For Premier ATCs and trainers wishing to deliver select, advanced NSE courses, a second assessment based on Enterprise Firewall content is required.

FCTs receive ongoing enablement through train-the-trainer (TTT) sessions for new course releases, as well as regular office hours.

For more information, visit https://training.fortinet.com/local/library/?category=FCT%3A_Fortinet_Certified_Trainer, or contact fct@fortinet.com.

Fast Track Workshops

Fortinet Fast Track Workshops are interactive, instructor-led sessions designed to deliver focused, hands-on training across key Fortinet solutions.

Designed for partners and customers, these concise workshops combine market context, real-world use cases, and enabling technologies to help you understand and apply Fortinet's integrated, high-performance Security Fabric. You gain practical experience implementing core components, reinforcing both technical knowledge and real-world application.

For more information, visit <https://www.fortinet.com/training/fast-track> or contact the Fast Track Team at fasttrack@fortinet.com.

Academic Partner Program

The Academic Partner Program collaborates with educational institutions worldwide to help build a more diverse, equitable, and inclusive cybersecurity workforce. It bridges the gap between education and careers by providing access to industry-recognized Fortinet NSE training and certification.

Academic partners can integrate Training Institute certifications into existing curricula or deliver them as standalone continuing education programs. Students gain access to hands-on lab environments, enabling practical experience alongside course instruction. Eligible students may also receive Pearson VUE exam vouchers to pursue Fortinet certifications and validate their skills.

For more information, visit <https://www.fortinet.com/training/academic-partner-program>.

Education Outreach Program

The Education Outreach Program partners with organizations across nonprofit, industry, academic, and government sectors to expand access to cybersecurity education and certification globally. Its mission is to help build a more skilled, diverse, and inclusive cybersecurity workforce.

Fortinet collaborates with organizations supporting underrepresented and underserved communities, including Women in Cybersecurity (WiCyS), Cyversity, Blacks in Technology Foundation (BIT), Latinas in Cyber (LAIC), and the National Economic Education Trust (NEET), among others. These partnerships help provide access to training, certification, and career pathways within the Fortinet ecosystem.

By connecting individuals to education and employment opportunities, the Education Outreach Program helps address the global cybersecurity skills gap while advancing diversity, equity, and inclusion.

For more information, visit <https://www.fortinet.com/training/education-outreach-program>.

Veterans Program

The Fortinet Veterans Program, within the Education Outreach Program, supports military service members, veterans, and military spouses as they transition into cybersecurity careers. These individuals bring adaptability, discipline, and a strong learning mindset, qualities well suited to the evolving demands of the industry.

The program provides free training, certification opportunities, and hands-on labs to build foundational to advanced cybersecurity skills. Participants also gain access to career development resources through Fortinet's program partners, including job boards, interview preparation, and resume support.

Through this initiative, Fortinet works with partners to help veterans successfully transition into cybersecurity roles and contribute to closing the global skills gap.

For more information, visit <https://www.fortinet.com/training/veterans-program>.
