- Process credit and collections in Dynamics 365 Finance
- Manage transportation management in Dynamics 365 Supply Chain Management
- Set up Master Planning in Dynamics 365 Supply Chain Management
- Use master planning in Dynamics 365 Supply Chain Management
- Demand Driven Material Requirements Planning in Dynamics 365 Supply Chain Management

Who Should Attend

This course is designed for The Dynamics 365 Supply Chain Management functional consultant. The Dynamics 365 Supply Chain Management functional consultant is a key resource that designs and configures apps to meet the requirements for a customer. The functional consultant analyzes business requirements and translates those requirements into fully realized business processes and solutions that implement industry-recommended practices. The functional consultant specializes in one or more of the following feature sets of Dynamics: finance, manufacturing, or supply chain management. They partner with architects, developers, administrators, and other stakeholders to deliver solutions that meet or exceed the needs of their customers.
